

RESOLUTION NO. 666

**A RESOLUTION RELATING TO RATES TO BE CHARGED
FOR ELECTRICAL SERVICE, ESTABLISHING
EFFECTIVE DATES, AND REPEALING RESOLUTION
652.**

RECITALS

1. Pursuant to M.M.C. Chapter 13.24.005, the Council is authorized to establish rates for utility service pursuant to Resolution. The rates were last modified in 2012 through the adoption of Resolution 652.

2. The Director of Public Works has carried forth a review of the rate modifications imposed by the Bonneville Power Administration since the adoption of the current rates. Based upon that review, the Director made recommendations based upon the available information.

3. A continuing review of the fiscal status of the electrical utility has confirmed to the Council and Mayor the necessity of modifying existing electrical utility rates for service delivered to the System's customers.

4. According to the information provided to the Mayor and Council by the Director, the modifications made in the existing rates by the provisions of this resolution are appropriate in

light of the duty to assure the long term fiscal stability of the Utility.

NOW, THEREFORE, BE IT RESOLVED AS FOLLOWS BY THE CITY COUNCIL OF THE CITY OF McCLEARY, THE MAYOR SIGNING IN AUTHENTICATION THEREOF:

SECTION I: On and after the effective date stated in Section III, the following rates shall be charged and the following classifications shall be established:

SCHEDULE 1

RESIDENTIAL RATES

1.1: Availability: Applicable to domestic use of all residential customers, including single-phase motors with individual rate capacity of 7 ½ HP or less. Service under the Residential Rate shall apply to electric service in single-family and multi-family private dwellings, and their appurtenances, those uses set forth below, for general farm service, including water-heating, but not for resale to others.

The Residential Rate shall also apply to service for institutions such as clubs, fraternities, orphanages, or homes, recognized as rooming or boarding houses; the space in an apartment or other residential building primarily devoted to use as an office or studio for professional or other gainful purposes.

(c) The residential rate shall not apply to assisted care and living facilities, including nursing homes.

1.2: Rate:

Meter Service Charge - \$7.05 per meter per month

Consumption Charge - \$.0740 per KWH

Minimum Charge - \$15.00 per month (Includes meter service charge of \$7.05.)

Delivery Point - The above rates are based upon the supply of service to the entire premises through a single delivery and metering point. Separate supply for the same customer at other points of consumption, or at a different voltage or phase, shall be separately metered and billed. For the purpose of maintenance responsibility, the customer is responsible for the service line from the meter to the building.

SCHEDULE 2

LARGE RESIDENTIAL AND COMMERCIAL LIGHTING AND POWER RATES

Availability: Applicable to all large residential (greater than 7 ½ Hp) and commercial light, heat, and power customers, including but not limited to facilities of municipal corporations including school districts and hospital districts, assisted care and living facilities, including nursing homes, as well as for religious organizations or other service organizations providing services at properties which qualify for exemption from real estate taxes. Energy supplied under this schedule shall not be submetered for resale or resold to others.

A. Single-Phase Power:

Meter Service Charge - \$10.50 per month per meter.

Consumption Charge - \$.0787 per KWH.

Demand Charge - \$3.05 per KW.

Minimum Charge - \$20.50 per month (Includes meter service charge of \$10.50.)

B. Three Phase Service:

Meter Service Charge - \$21.00 per month per meter

Consumption Charge - \$.0787 per KWH

Demand Charge - \$3.05 per KW.

Minimum Charge - \$36.00 per month (Includes meter service charge of \$10.50.)

Delivery Point - The above rates are based upon the supply of service to the entire premises through a single delivery and metering point. Separate supply for the same customer at other points of consumption, or at a different voltage or phase, shall be separately metered and billed except that where two or three points of delivery have already been installed in an old commercial building or where, in the opinion of the distributor's authorized representative, it would be impractical for the customer to alter his/her wiring to the extent necessary in an old commercial building, separate services requiring two or three meters may be billed as one meter.

For the purpose of maintenance responsibility, the customer is responsible for the service line from the meter to the building.

SCHEDULE 3

INDUSTRIAL LIGHTING AND POWER SERVICE

Availability: Available to industrial consumers for light, heat, and power. Energy supplied under this schedule shall not be submetered for resale and resold to others.

A. Industrial Customer

Energy Charge - \$.0478 per KWH

Demand - \$6.01 per KW

1. Billing Demand: The billing demand shall be the higher of the following demands:

a. The measured demand.

b. 80 percent of the highest demand measured during the preceding eleven months.

2. Minimum Charge: The minimum monthly charge shall be \$30.70 for those customers with less than 65 KW installed capacity. For those customers with 65 kva installed capacity or more, the minimum monthly charge will be \$.72 per KW.

3. Determination of Demand: Demand measure shall be made by suitable instruments at the point of delivery during the 30-minute period in which the consumption of energy is greatest during the month for which determination is made.

4. Adjustment Demand Charge for Power Factor: All loads with installed capacities of 75 kva and above shall be billed for power factor by increasing the Measured Demand by 1 percent for each 1 percent or major fraction thereof by which the average

power factor is less than .95 lagging. Unless specifically otherwise agreed, the Distributor shall not be obligated to deliver power to the purchaser at any time at a power factor below .75 lagging.

5. Tax Additions: To the above rate proportional increases may be added to compensate for any gross revenue kilowatt hour or other form of tax hereafter imposed by any municipal, county, state, or federal taxing body.

6. Contract requirements: Customers whose measured demand is 100 KW or more may be required to execute a contract for a minimum term of five (5) years.

7. Delivery Point: The above rates are based upon the supply of service to the entire premises through a single delivery and metering point. Separate supply for the same customer at other points of consumption, or at a different voltage or phase, shall be separately metered and billed.

For the purpose of maintenance responsibility, the customer is responsible for the service line from the meter to the building.

SCHEDULE 4

STREET LIGHTING RATE

(ON EXISTING POLES)

Availability: To the City of McCleary.

Applicable: To overhead street lighting from dusk to dawn every day for lighting streets, alleys, thoroughfares, grounds, and parks.

Specifications: The system shall be of overhead construction consisting of poles, aerial circuits, mast arms, and standard luminaries. The charges below are for energy and relamping only.

Under grounding and new or replacement installations, except when such installation shall be required as part of a development, shall be paid for by the City of McCleary. Maintenance shall be by the Light and Power Department.

Monthly Rate:

<u>Lamp Rating</u>	<u>Lamp Type</u>	<u>Energy and Relamp Charge</u>
100 watt	HPS	\$4.18 per month
200 watt	HPS	\$6.49 per month

SCHEDULE 5

SECURITY LIGHTING

Availability: Available to all system users.

Specifications: The pole will be pressure-treated and manufactured and installed in accordance with City of McCleary's standards. The lighting hardware and equipment will be provided by the City of McCleary Light and Power Department.

Monthly Rate - Flat Charge:

\$9.65 per month.

General Terms and Conditions: In addition to the monthly flat charge, as to any newly installed security lighting, the applicant shall also pay, at the time of application, an amount to be determined by the Director of Public Works as representing the costs of the pole and installation. For additional terms and conditions see above.

SECTION II: EFFECTIVE DATE:

The rates established by Section I of this Resolution shall become effective as to all power metered on and after the 16th day of December, 2014, for billing on and after the 31st day of January, 2014.

SECTION III: REPEAL:

Resolution Number 652 shall be and is hereby repealed as of the effective date for utilization of the new rates, as established in Section II. Such repeal shall not effect any obligation which arose under the provisions of that resolution.

PASSED THIS 8TH DAY OF JANUARY, 2014, by the City Council of the City of McCleary, and signed in approval therewith this 22nd day of January, 2014.

CITY OF McCLEARY:

D. GARY DENT, Mayor

ATTEST:

WENDY COLLINS, Clerk-Treasurer

APPROVED AS TO FORM:

DANIEL O. GLENN, City Attorney
